

NIGHT VISION

Night Enforcer® PVS-14

Introducing ITT Industries Night Vision's most advanced product. The versatile Generation 3 PVS-14 allows the user to adjust the gain control in varying light conditions. The monocular uses a military style intensifier tube in a compact high performance housing designed for multiple uses. This unit can be handheld, as well as head-mounted, or adapted to a camera or camcorder. This unit can also be weapon-mounted.

Key Features Include:

Variable gain	Camera-adaptable	Eyepiece diopter adjustment
Adjustable headmount	Weather resistant	Low battery indicator
Camera-adaptable	Weaponsight mountable	Flexible carrying case
F/1.2 objective lens	Automatic brightness control for high light protection	3 year system warranty
IR illuminator		5 year intensifier tube warranty
IR-on indicator		

Night Enforcer® PVS-14

Night Enforcer® 160

Offers a high-performance Gen 3 tube. Ergonomic design makes this a comfortable unit for use on long missions, while "quick-focus" feature allows easy, one-step focusing.

Key Features Include:	Uses 2 AAA alkaline batteries
	Automatic brightness control
	Flexible carrying case
	Durable construction
	"Battery saver" cutoff timer
	3 year system warranty
	5 year intensifier tube warranty

Night Enforcer® 5000

The Night Enforcer 5000 goggles from ITT Industries are designed with the same mechanical features as the 5001. The difference is the 5000 has a removable 25mm objective lens for adaptation of a variety of c-mount lenses. These viewers use a Generation 3 intensifier tube and have a built-in infrared light source for additional illumination. The units are simple to operate and are powered by 2 AA batteries. These units are designed to be handheld or head-mounted, adjustable headmount included.

Key Features Include:

Adjustable head-mount	Operates approximately 30 hrs 2
25 mm (F/1.4) lens w/ 40: field of view	AA alkaline batteries or on
IR illuminator	one BA-5567 lithium battery
IR-on indicator	Size: 6 3/8" (L) x 6" (W) x 3" (H)
3 year system warranty	Lightweight: (24 oz.)
5 year intensifier tube warranty	

Night Enforcer® 5001 (PVS-7)

These Generation 3 goggles were designed for and are used by the U.S. Armed Forces. The 5001 goggles have the same mechanical features as the military AN/PVS-7B, such as durable military specification construction, built in IR illuminator, and automatic high light cutoff. Headmount is included.

Key Features Include:

F/1.2 objective lens with 400 field of view	Adjustable head mount
IR illuminator	Flexible carrying case
IR-on indicator	One BA-5567 lithium battery or 2 AA alkaline batteries
Momentary IR-on switch	Measures: 6 3/8"(L) X 3"(H) X 6"(W)
Low battery indicator	Lightweight: (24oz.)
Automatic high light cutoff	3 year system warranty
	5 year intensifier tube warranty

& AIMING DEVICES**

ITT Industries
Engineered for life

The NE 6010 pockscope provides ultra-high-performance Generation 3 technology in a versatile night vision system that functions both as a handheld viewer and a camera night lens system. The pockscope is compact, lightweight, and designed for easy use and low-light-level performance. The 6010 can be adapted to a variety of cameras to provide conviction quality evidence. Objective C-mount adapter Allows you to attach any C-mount lens of your choice. The C-mount adapter is included with the NE6010.

Night Enforcer® 6010

NE6010

Key Features Include:

- 25mm objective lens
- Swing-out IR light source
- Built-in tripod socket
- Automatic brightness control for high light protection
- Includes c-mount adapter
- Camera-adaptable

- Carrying case
- Uses two AA batteries
- Size: 4 5/8" (L) x 2 5/8" (W) x 2 3/8" (H)
- Weights 14.7 oz.
- 3 year system warranty
- 5 year tube warranty

Night Enforcer® 6015

NE6015

The versatile 6015 is designed for use in starlight and moonlight for reading, general observation, hands-free nighttime usage, weapon sight use, or nighttime still or video photography. It's a Generation 3 image intensification system that can be handheld, adapted for camera use, mounted to a small arms weapons mounting rail, or attached to a head/helmet mount. This is one of ITT's most flexible multi-purpose units.

Key Features Include:

- Low battery indicator
- Flexible carrying case
- Uses two AA batteries
- 3 year system warranty
- 5 year tube warranty

- Compact: 4 1/2"(L) X 2 1/2"(H) X 2"(W)
- Lightweight: (13.5 oz.)
- F/1.2 objective lens
- IR illuminator
- IR-on indicator

- Camera-adaptable
- Headmount included
- Weaponsight mountable
- Automatic brightness control for high light protection
- Eyeiece diopter adjustment

Night Enforcer® F7201J

Generation 3 weaponsight features interchangeable daytime and night vision modules enabling your weapon to remain at zero day or night. Includes high rise rings.

Key Features Include:

- 2.5X-10X power day scope
- Bayonet attaching day & night eyepieces
- High performance Gen 3 intensifier
- Rapid eye-focus adjustment
- Turret adjustment protective covers
- Triplex mil dot reticle

- Same eye relief for day and night
- Detachable glare shield
- 1/4 MOA turret adjustment knobs
- Large 56 mm objective lens with adjustable focus

Aiming System for M4/M16

Ideal aiming system for the M4/M16-MP5 series of assault wepaons. Includes the accessory mounts to install the Model 551 EOTech Holographic Sight and the Night Enforcer 6015 or Night Enforcer PVS-14 (with quick disconnect) to the A2 flat-top rail. The carry-handle mount accessory allows usage with AR15 and other carryhandle models.

The N6015 and NEPVS-14 are sold seperately.

Please state model when ordering.
