Packaging, dispenser and storage options

Whether you're outfitting employees by the handful or the hundreds, we offer convenient and economical options that fit the needs of your workplace. What are the choices? Recyclable paper packages, individual polybags, reusable cases and bulk dispensers that eliminate packaging completely, just to name a few.

Detectable Earplugs

Our comprehensive selection of detectable earplugs are designed for high visibility and detectability. Available in Single-Use and Multiple-Use options. Specially created for environments where contamination from foreign objects is unacceptable.

Banded Earplugs

We offer a variety of performance features, including a patented band design that prevents earpads from touching dirty or contaminated surfaces when set down. Great for managers or for use in environments with intermittent sound hazards.

Impact

The Impact series enhances user awareness of their environment through advanced sound amplification technology. Impact allows wearers to hear important communication - other co-workers, alarms and warning signals - at a safely amplified level. Positioned microphones provide more natural, directional hearing. Through an advanced response technology, Impact reverts to passive earmuff mode when noise reaches 82 dB or above. Impact is ideal for hearing impaired workers and can help prevent isolation on the job.

- * Ideal for hearing impaired workers
- * Limits sound amplification to 82 dB - response technology reverts to passive hearing protector when noise reaches 82 dB
- * Inner-ventilated headband minimizes pressure on the head, breathes easier in warm/humid climates
- * Non-deforming outer headband withstands rough treatment in the toughest workplaces
- * Quick-Click height adjustment remains fixed during wear
- * Snap-in ear cushions make replacement quick and easy

FastSpec

Need to compare products or find a specific feature? Our FastSpecs make it easy

1. New Designs

Look to these products for the latest innovations in performance and comfort.

2. Silhouette

Because every ear is different, Howard Leight Earplugs are available in a range of shapes.

*** SmartFit™**

<p>Flange Distributes pressure evenly on the ear canal to deliver unmatched comfort and superior attenuation</p>	<p>Bell Flared shape provides maximum attenuation</p>	<p>T Contoured for easy insertion and comfortable wear</p>	<p>Pill Two sizes in one provide more fit options with a single product</p>	<p>Bullet Contoured to fit the shape of the ear canal</p>	<p>Flat Arrow Fits easily inside the ear canal opening and provides maximum protection</p>	<p>Oval Pad Fits just on the opening of the ear canal for wearer comfort</p>

5. Size

ALL One Size Fits All
S Small
M Medium
L Large

3. Material
Foam - Low and Medium Pressure foam. Self-adjusts for a comfort fit.

Molded - Soft and pliable. Ideal for long-wearing situations.

Conforming Material Technology™ (CMT) The ultimate custom fit. Changes shape with body heat to conform to every individual wearer. The longer you wear it, the better it fits.

4. Noise Reduction Rating (NRR)
This rating system established by the EPA lets you compare the level of protection offered by various products. Use NRR, along with comfort features to determine what product works best in your situation.

Multiple-Use Earplugs

Multiple-Use Earplugs last for weeks, reduce waste and save money. Simply clean with soap and water.

Ideal for environments where workers can retain and store earplugs for reuse.

ELECTRONIC EARMUFFS

Supreme Pro Earmuffs

MSA's top model. Provides optimum protection with high amplification, AUX input and watertight battery compartment. Both earmuffs are shaped to suit both right-handed and left-handed shots.

- 2 separate, well-shielded microphones for optimum stereo effect and location of sound direction
- High amplification and natural sound reproduction without "chopping"
- Around 600 hours battery life with 2 standard AAA batteries
- AUX input for connecting external audio sources, such as a radio.
- Lead with 3.5 mm mono jack plug included

CutOff Pro

Built-in Level Dependent Function Protects Without You Feeling Isolated

- Lets through speech and other harmless sounds while protecting you from harmful noise
- Battery life of 1000 hours
- Amplification of weak sounds
- Auxilliary input for connection if external devices

CutOff Pro -Headband Model (NRR - 24dB)
CutOff Pro -Slotted Cap Model (NRR - 22dB)

MICH Dual-Communication System

The Modular Integrated Communication Headset (MICH) System is an unobtrusive microphone/sound transmission system that provides interface capability with various military and other radio transceivers and intercom systems.

Components:

- 1 low-noise headset
. Includes a bone microphone, 2 speakers with quickdisconnect communication-box connector and helmet retention clip
- 1 headband, allowing the attachment of the acoustic electronics and communication without a helmet
- 1 high-noise headset with a bone microphone and a quick-disconnect communication-box connector
- 1 PTT (push-to-talk) communication box with connecting cable
- Protective box pocket with Velcro closure

EARMUFFS

NRR 30 dB

NRR 28 dB

Available in over-the-head (H10A as shown left); back band (H10B); and hard hat attached (H10P3E) models

H10 Extreme Performance Series

The Twin-Cup™ personal hearing protector for extremely high noise environments. ISO 9000 | ANSI

Unique, patented dual cup design minimizes resonance to achieve maximum sound quality and attenuation without resorting to mufcupps.

Wide, soft padded head-band distributes weight while 2-point suspension exerts low pressure for comfortable, long term use soft, foam-filled ear cushions provide added comfort.

Peltor's H10A has the highest noise reduction rating on the market for any ear muff that has been tested by an accredited facility (NVLAP).

NRR 27 dB

NRR 22 dB

NRR 24 dB

H7 Deluxe Series

Deluxe personal hearing protector provides excellent attenuation at low and high frequencies
ISO 9000 | ANSI

Wide, soft padded head-band distributes weight while two-point suspension exerts low pressure for comfortable, long term use

Soft, liquid foam-filled ear cushions provide added comfort.

Available in over-the-head (H7A as shown left); back band (H7B); hard hat attached (H7P3e) and folding (H7F) models.

Simple height adjustment without projecting parts.

Suitable for agriculture, construction equipment, heavy industry and airports.

H6 Low Profile Series

Our lowest profile hearing protector.
ISO 9000 | ANSI

Wide, soft padded head-band distributes weight while two-point suspension exerts low pressure for comfortable, long term use Soft, liquid foam-filled ear cushions provide added comfort. NRR 19 dB

Designed for use with welding helmets, sand-blasting hoods, hard caps, bump caps and fire helmets

Not only protects from noise, but also protects from welding spatter which can cause ear and ear canal burns

NRR 20 dB

NRR 19 dB

ELECTRONIC EARMUFFS

The compact "hearing" hearing protector

Tactical™ 6-S
MT15H67FB-01

- NRR 19dB
- Impulse noise attenuated immediately
- For Hardwoods green order as 97086-00000
- Features dual, stereo volume controls
- For MAX4 camo pattern order as 97087-00000
- Four 1.5 V long life AAA batteries provide 200+ hours of service

Sporttac

Tactical Sport headset
MT16H210F-479-SV

- * New Digital electronics for superior ambient sound reproduction inside
- * Folding headband, interchangeable outer cup shell design
- * Headset comes with standard black cups and an extra set of orange cups
- * NRR 20dB
- * Operates with 2AAA batteries, battery life of 500 hour

Sound-Trap™ Slim Line
MT15H67FB

- NRR 19dB
- Impulse noise attenuated immediately
- Features dual, stereo volume controls
- Great for hunting applications and people with hearing loss
- Four 1.5 V long life AAA batteries provide 200+ hours of service

TACTICAL Pro
Electronic Headsets

When clear ambient sound and voice recognition is required in your noisy environment, rely on the latest line of electronic headsets from Peltor.

The TACTICALPro has been designed with a unique frequency response that amplifies signals, voices and warning sirens while at the same time instantaneously suppressing dangerous impulse noises. This headset is the perfect choice for a wide variety of applications including:

- Gun Ranges
- Fork Lift Drivers
- Airport ground personnel
- Maintenance mechanics
- Hearing Impaired Workers

Standard Headset Model Numbers:
MT15H7F SV Folding headband
MT15H7B SV Neckband model
MT15H7P3E SV Hardhat mount

2-Way Headset Model Numbers:
MT15H7A-07 SV Headband,
2-way w/ boom
MT15H7B-07 SV Neckband model,
2-way w/ boom
MT15H7P3E-07 SV Hardhat mount,
2-way w/ boom
FL50* Radio push-to-talk adaptor

Clear and reliable communication is critical to the success of any Swat operation. Peltor's Swat-Tac combines the latest surround sound technology and slim-line earcup design to offer the most versatile special ops communication headset available.

- Fits under ballistic helmets
- Adaptable to any police radio system
- Available in OD Green
- Covert black finish on all components

Swat•Tac special ops headset includes:
MT15H68FB 08-SV Swat-Tac headset
FP9007-US - Carrying Case
TK55 - Remote Push-to-talk
